## QRI STEWARDSHIP PRINCIPLES

*QRI is a value creation company. We do our very best to protect the environment in the conduct of all our business activities.*

*Our vision is to be the world's leader in enhancing the value of oil and gas resource assets through responsible reservoir management.*

These ethical standards guide our thinking and practices in our quest to provide more energy to the world.

### *The Environment*

We will make every effort – technical, intellectual, social – to protect the environment for both current and future generations. This includes water resources, soil, wildlife, and the air we breathe.

### *Resource Recovery*

It took millions of years to generate earth's hydrocarbon resources. We vigorously embrace our professional responsibility as its stewards. We are committed to the responsible and most efficient recovery of the planet's hydrocarbon resources.

### *Health and Safety*

In all our business activities we will do our utmost to protect the health and safety of our workforce and the public we serve. We will anticipate and mitigate any threats to the fullest extent of best practices and technologies.
